02-25-2020

We'd like to invite you to take part in our new **Precept Leader Training (PLT)** – an intensive training program, which has been specifically designed to prepare people for biblical leadership, to adequately equip them to fulfill their role(s) in order for them to help others study God's Word on their own, start Precept-groups and seize upon opportunities to share the Gospel and/or make disciples.

The idea behind this **Precept Leader Training** is our desire to identify potential leaders as well as equip and support existing leaders to develop a biblical worldview and utilize strategies to reach groups of individuals from various backgrounds with the Gospel – whether in the local church or through the local church – and engage them in step-by-step discipleship.

The training program consists of six (6) courses, which are built on the following building blocks for each:

1. Training in the inductive Bible study method while utilizing Precept materials and courses;
  2. the strategic combination of courses and materials to bring it to bear for maximum impact;
  3. exercises, tests, and practical application of what has been learned in real life scenarios;
  4. intentional use of social media in the disciple-making process;
- etc.

The next training will take place in Dübendorf (near Zürich, Switzerland) on March 13 & 14, 2020. We have decided to combine our training on that day under the heading of "team building" as we want to show each participant how they can utilize the 40-Minute Study *Being a disciple – counting the cost* in their personal discipleship efforts. In addition to the above, we want to use our time together to introduce Precept's strategy to reach German-speaking Europe by strengthening local churches, by intentionally engaging in personal discipleship, and by identifying and equipping potential leaders for future multiplication. The participants of this March training will comprise the first team, which serves as the basis for the translation of this strategy in Switzerland.

We'd like to invite you to register at [www.precept-ministries.de/ptl](http://www.precept-ministries.de/ptl). On that page, you will find further information about the training and additional resources.

I am looking forward to our time together!

Blessings,
